THE CIVIL REMEDIES BILL. THE PASSAGE OF THE BILL RECOMMENDED BY E. DELAFIELD SMITH, CORPORATION COUNSEL. [BY TELEGRAPH TO THE TRIBUNE.]

ALBANY, N. Y., March 3 .- Senator Booth, Gen. Husted, and ex-Lieut.-Gov. Alvord have received from Corporation Counsel E. Delafield Smith the letters subjoined, urging that the weight of their personal influence and their votes be cast in favor of the passage of the third Reform bill introduced by Mr. Hammond on Monday night and reported favorably by Mr. Wachner from the Judiciary Committee te-day. This bill, it will be remembered, gives the State the right to sue public officers guilty of fraud and malversation, and thus overcomes the obstacle thrown by the decision of the Court of Appeals in the way of recovering moneys stolen from the people. It is not thought here that Republican sentiment in fvaor of this bill needed strengthening, as it is believed that it would in any case have received the Republican vote ; but these letters may steady some wavering members, and at all events serve to indicate the Corporation Counsel's desire to place himself on record in favor of the measure. Whatever opposition is made to the bill will doubtless come from such members as are still in sympathy with Tweed and his allies. How far these may be found in both parties remains to be seen. The letters are as follows :

THE LETTER TO SENATOR BOOTH. LAW DEPARTMENT,
OFFICE OF THE COUNSEL TO THE CORPORATION,
NEW-YORK, March 3, 1875. The Hon. JAMES W. BOOTH, Senator from the City of New-

York, and the Hon. THOMAS G. ALVORD, ex-Lieuten ant-Governor and ex-Speaker of the Assembly. GENTLEMEN: I solicit your immediate attention to a matter of vital public concern. Pending in the Legisla-ture is a bill prepared by the Hon. Charles O'Conor, and understood to be recommended by His Excellency Sam-nel J. Tilden, the Governor of the State. In the leading features of this measure it is proposed to give to the State the prosecution of the Civil Remedies for the unprecedented conversions of public money and the stupendous frauds which form the most conspicuous chapter in our municipal history. The gratuitous services of these two distinguished jurists in relation to the absorbing subject referred to, give them of necessity peculiar means of judging as to what is required by the cause of instice and of restitution. My own position as head of the Law Department of the City of New-York enables me also to bear important testimony upon the necessity

In the first place, the masses of public and of private hitigation always pending in the 1st Judicial District, added to other obvious considerations, afford excepmeans to employ numerous and able counsel.

In the second place, the proceeds of the enormous con

of the legislation in question.

versions of public funds above mentioned; are largely invested in real estate and other property, not only in this city, but in remote parts of the State and nation, as weil also as in other countries and continents. It follows not only that judgments should be obtained at the earliest practicable period, but also that the unlawful gains involved should be pursued wherever they can be found. It requires no argument to show that if those indements shall be in the name and the ownership of the great political division of this country known as the State of New-York, it will be far easier than if they are in the name only of the city, to follow them to remote regions where the aid of foreign tribupats can be in

With regard to the ultimate direction of all recoverie to the Treasury of the fax-pavers of this city, from which the money was extracted, the bill itself makes

The considerations which I have above imperfectly stated need hardly be supplemented by the fact that the ordinary and vastly augmented interests confided to this department of the Municipal Government demand, and eight to absorb, all the energies of any lawyer who may hold the office of Counsel to the Corporation.

In my judgment no argument founded upon the rights and interests of the public here can be framed against the policy, or even the necessity, of the legislation called for; but the measure which I hambly urge ex-tends its importance to other places in the State at large. There are counties where the vast majority of the tax-payers and owners of real estate therein reside without the limits of the county itself. Their residences will be found in adjoining counties, and also largely to remoter sections of the State. The principle of the bill is, that where public plunderers are personally identi-cal with the officials of a city, so that those appointed to protect the local Treasury become depredators upon 11, civil suits (as is already thy case with criminal prose authorities thoroughly independent of those which are

Placed as I am in a situation to look at this great matter in all its practical bearings, I do, not only as a lawyer and a citizen but also as a public officer, most sincerely and earnestly recommend the passage of the bill. I beg that you, gentlemen, will make known my views to my per sonal and political friends in the Legislature. The have little importance coming from an individual except that my relations to the litigations give me manifest op-portunities for correct judgment. I hope that this letter, although not in the form of a petition, may be so used by you as to have the same effect in the appropriate Committees and in the two Houses. I am, gentlemen with great respect and regard, your humble friend and

Counsel to the Corporation. EX-SPEAKER HUSTED URGED TO SUPPORT THE BILL. CFFICE OF THE COUNSEL TO THE CORPORATION, NEW YORK, March 3, 1875. Gen. JAMES W. HUSTED.

DEAR SIE: I wish you would at once ask Gov. Alvord or Senator Booth to show you a public letter which I

bave addressed to them. The public importance of the saligect upon which I have written them cannot, I assure you, be overestimated; but I ask you and them and all other friends of

mine, either personal or political, to accept my further and most solicitous assurance that the passage of this would relieve my office and me from responsibilities with which neither the office nor I ought to be burdened, in view of the mountain already piled upon it. This, therefore, is to me not only a public but a per

conal matter. Depend upon it, that whatever party should rally to this bill will ultimately, if not at once immensely strengthen itself with the great mass of ntelligent, thinking, and honest men. Depend upon it. further, my dear Sir, that the Legislature could not do steelf more credit and honor than by placing upon the statute book the measure which will put beyon! quesmen a speedy and satisfactory result in these cases I am well aware that the years employed by the prose

entions and deliberations which the recent decision of the Court of Appeals relates to, have caused delays which under the circumstances could not have been avoided; but the true solution of all complications would be the adoption of the principle and the policy involved in this bill. I am, dear Sir, yours very truly, E. DELAFIELD SMITH

THE EMIGRATION COMMISSION TO BE IN-

VESTIGATED. MR. HAUSCHEL'S RESOLUTION ADOPTED BY A VOTE

OF 54 TO 53. [PROM THE REGULAR CORRESPONDENT OF THE TRIBUNE.] ALBANY, March 3 .- Mr. Hauschel of New-York called up from the table this morning his resolution charging extravagance and mismanagement against the Emigration Commission, and directing the Committee on Commerce and Navigation to make an investigation into its affairs. In urging its adoption Mr. Hauschel alleged that the debt of \$300,000 which the Legislature was asked to pay by appropriation was incurred through extravagance and incompetency, and ascribed the falling-off in the immigration by way of New-York to the bad management of the Commission. The resolution was vigorously opposed by Gen. Husted and ex-Lieut.-Gov. Alvord on the Republican side, on the ground that it involved a needless outlay, and would result in no practical good to the State. Gen. Husted admitted that the Commission was in need of reconstruction, and pledged himself to vote for a bill performing that office, but refused to admit that the investigation could result in anything but expenditure. Mr. Thomas C. Campbell desired to have it understood that Mr. Hauschel's recolution was not aimed at his two bills, increasing the head-money and making an appropriation of \$300,000 for the Commission, and the latter stated that it was not. The resolution was further opposed by Mr. Petty, but was finally adopted by 54 to 58, after being so amended by Mr. Alvord as to prevent the Committee from employing a clerk, stenog-

sapher, or messenger, or causing any expense to the

State, and to require them to report within two weeks. An investigation can hardly be had on these terms, except in Albany, or by a pedestrian trip of the Committee to New-York.

WORK OF THE TWO HOUSES.

THE SEVENTH REGIMENT ARMORY QUESTION-THE DEPARTMENT OF DOCKS-THE USE OF SALT ON THE STREETS-THE BROOKLYN BRIDGE-PRO RATA FREIGHTS.

OM THE REGULAR CORRESPONDENT OF THE TRIBUNE. ALBANY, March 3 .- The 7th Regiment Armation came up this evening in a double form. Mr. Daly, from the Committee on Cities, reported adversely the bills providing for the erection of an armory for that regiment at the public expense and repealing the set of last year in accordance with which the ground intended as the site of the armory has been leased to the regiment by the city. The first of these reports was agreed to without question, as it is definitely understood that the 7th Regiment have abandoned the bill. The second report was finally disagreed to and the bill recommitte to the Committee on Citics. Mr. Costigan argued in favor of the latter bill, because the 7th Regiment had obtained the land under false pretenses, having assured the Legislature that the city would not be asked to aid in the erection of an armory; and Mr. Stauf protested against the injustice of granting to a single reg plot of ground worth two and a half millions. Mr. fless said that the regiment intended to build an armory out of their own funds, and therefore desired to retain the ground. Mr. Thomas C. Campbell insisted that the lease could not be annulled by an act of the Legislature, but Mr. Waehner claimed that the Legislature had the right to revoke a grant which was made for a public purpose, and the bill was finally recommitted.

Mr. Kennaday introduced Senator Murphy's Brook lyn Bridge bill, a synopsis of which has already been given in THE TRIBUNE, which provides for the dissolution of the bridge directory and makes the construction of the bridge a public work. Mr. Muller introduced a bill which is doubtless aimed at Mr. Bergh's seclety, conferring exclusive power on Police Commissioners and officers to make arrests for violations of the laws punishing cruelty to mimals. Mr. O'Keefe offered a bill for the improvement of Second-st. and Norman-aves, and to grade and pave Third and Nassauaves, in Brooklyn. Mr. McGroarty introduced a bill regulating

and to grade and grave Ambread a bill regulating the sale of kerosene, naphtha, and other explosive fluids in Brooklyn, and granting to the Brooklyn Fire Commissioners, the same powers in this respect that are exercised by the New-York Fire Commissioners.

The House by a decided vote passed Mr. Struble's resolution requesting the Rairoad Committee to report the pro-rate freignt bill within one week, not with standing Mr. Mackin's explanation that the delay in reporting it was due to the desire to grant a hearing to interested persons. Mr. Wachner reported from the Juntehary Committee the third Reform bill manneaded, By resolution of Mr. Hammond the House agreed to hold evening sessions on Tuesday and Taursday to hasten business.

hasten business.
In the Scuate, Mr. Robertson reported adversely, from In the Scuate, Mr. Robertson reported adversely, from the Judiciary Committee, Senator Gross's bill to increase the number of Commissioners to revise the statutes to five, and favorably the bill providing that no child, between the ages of 3 and 15, shall be piaced in a county Foorhouse. The general bill regulating savings banks was considered in Committee of the Whole and occupied most of the session. Senator Bradley offered an amendment, which was adopted, providing that all information obtained by the Smerintendent of Banks in regard to existing or projected savings banks shall be reported to the Legislature. Senator Lining speke against the bill, on the ground that it divested the Legislature of all authority over savings banks and this he regarded as a step in the wrong direction. Senator Wood argued in favor of a general law, in order that the abuses growing out of special charters might come to an end. After the adoption of Senator Bradley's amendment, some farther time was spent upon the bill.

AMENDMENTS TO THE MILITARY CODE. BILL TO BE REPORTED FROM THE COMMITTEE ON THE MILITIA-EXEMPTION FROM TAXATION TO

BE ABOLISHED-OTHER IMPORTANT CHANGES. ALBANY, N. Y., March 3 .- Gen. Husted will report from the Committee on the Midtia to-morrow a bul making many important amendments to the State Military Code. By this bill the present exemp-tion from taxation is abolished. The power to build or lease armories in New-York City is placed in the hands of the Board of Aldermen, conjointly with the Mayor, Controller, and Commissioner of Public Works The uniform fund, as at present constituted, is doubled. Power is given to Major-Generals to discharge a soldier honorably for good cause, and they are granted the sole power of discharging prisoners on application of the brigadier-general. Commissioned officers may be retried after ten years' continuous service. The court-martial law is repealed, and it now rests with the brigadier-general to select any officer whose rank is not below that of a captain as presiding officer of a court-martial. Rf.: practice will be under charge of the Inspector-General of the State, and the General Inspector of Rf.: Practice will be under charge of the rank of captain. A majority of the voters is made necessary to the election of an officer, and field officer-a privilege from which they have been hitherto debarred. The uniform fund, as at present constituted, is doubled.

THE SUPPLY BILL INVESTIGATION.

PESTIMONY OF MR. FANNING, THE ENGROSSING CLERK OF THE LAST ASSEMBLY-HOW THE SAL-ARY CLAUSE WAS OMITTED IN THE FIRST COPY OF THE SUPPLY BILL AND WHY IT WAS INSERTED

ALBANY, March 3 .- The Assembly Commite to investigate the charge of tampering with the Supply bill of 1874 met this afternoon.

Mr. Fanning, Engressing Clerk of the last Assembly, was recalled and examined on the engrossed bill, which was produced. He testified that the whole page relative to the Capitol Commission was reëngrossed and inserted in place of the one engrossed from the bill passed; after t was passed it was resugrossed by me; this was done after the bill was taken to the Governor; my attention was not called to the fact that the salary clause was in a different handwriting from that of the balance of the Conference Committee's report; I was told that the Committee had agreed upon inserting that clause I do not remember a direct request from Senator Wood to insert it, but I know there was an implied request; to insert it, but I know there was an implied request; among others, the Governor said the bill ought to constrorm with the report; it was on the strength of this suggestion and seeing the clause in the bill, that I acted.

To Mr. Waehner—During most of the interview in the Governor's room, Controller Hopkins was in conversation with the Governor, and he only spoke to us occasionally; don't know as Mr. Hopkins said anything about its being right to make the correction; can't fell what he said; Gov. Dix said it should be corrected; Mr. Hopkins heard this.

THE NEW CAPITOL.

THE INVESTIGATION BEFORE THE SENATE COMMIT-THE CONTINUED-TESTIMONY OF JOHN MURPHY AND CHARLES C. THURSTON, BRICK CONTRACTORS -EXORBITANT PRICES PAID BY THE STATE.

ALBANY, March 3 .- The investigation into the affairs of the new Capitol building was continued this evening before the Senate Finance Committee John Murphy testified: Resides in New-York; is a

lealer in mason material; his attention was just drawn to furnishing supplies to the new Capitol buildings in July, 1870; put in a proposal for brick; did not know the price of brick at Albany at the time of his bid; price of brick at Albany at the time of his bid; at Haverstraw, such brick as were wanted at the Capitol were worth from \$5.25 to \$5.50 per 1,000; put in a bid for \$10.95 per 1,000; left the bid at the Capitol office; learned some two days after he put in the bid that the contract was awarded him; bought 775,000 from Jacob Holler of Albany at \$5 per 1,000, and made \$2.95 per 1,000 on this lot, and did not touch them; in 1871 sold brick to the Capitol partnes at \$11.12 and \$13 per 1,000; nothing was said about the price of brick in this year before they was ordered; got memorands from the Inspector of the Capitol of the number of brick received here; was Receiver of Taxes in New-York from 1863 to 1867; in 1874 brick were lower than in any previous year for many years.

years.
Charles C. Thurston testified: Have been a builder 20 years; reside at Elizabeth, N. J.; agreed to furnish brick at \$13 per thousand; delivered arout one million brick in 1870 at these prices; bought them at Verplanck's Point; paid \$11 per thousand for them delivered on the dock at Albany; think I paid them \$2 per thousand more than the New-York market price; the \$2 extra were probably paid for influence to obtain contracts.

Thomas Fuller, recalled and sworn: He said the quantity of grabite as given by him before in evidence was obtained from the plane, not from measurements.

AN INJUNCTION SERVED ON GEORGE L. FOX.

For several months past various efforts have een made to serve George L. Fox, the pautomimist with an order of injunction restraining him from " pe forming in his professional character as low comedian or pantomimist." The order was issued by Judge Donohue, on the representation of Seneca A. Swaim lessee of Daly's Broadway Theater. Mr. Swalm alleges that Fox has broken the provisions of a contract, which stipulated that the celebrated clown shall not perform except under Mr. Swalm's direction. Last year, when Fox played in the Brooklyn Academy of Music, it was with considerable difficulty that he evaded the Sheriff's officers.

After the performance of "Humpty Dumpty" on a recent evening at the Academy of Music in Brooklyn, Mr.

Fox retired to his dressing-room. While he was preparing to leave. Deputy Sheriff Thorne made his way into the house by the stage enfrance, and handed a document to the astoniahed actor, which proved to be Judge Donohue's order ordering Mr. Fox to appear before him to show cause why he should not be restrained from performing except under Mr. Swalm's direction.

By this order Mr. Fox is also directed to refrain from playing except under Mr. Swalm's direction until further order from the Court difficulty that he evaded the Sheriff's officers

was a workman engaged to assist in removing stage property, and so failed to warn Mr. Fox.
